About our programs

CR Music has created four levels of entertainment by Carolyn Richards and company. Each level is designed to accommodate a different client base.

Level one is a small show involving Carolyn and her husband, Dave Butcher. They travel with their own professional sound system suitable for many venues.

Level two is a country show involving one or more guests and backdrops up to thirty two foot wide. This show is suitable for sitting audiences and has been a hit wherever presented.

Level three involves appearing with a band in nearly any venue. We can bring a band or work with your band.

Level four is a major show or program involving several artists. This can be several hours or a whole week. We are able to handle all the booking.
